SUMMARY

I am a skilled and passionate web developer with experience in React and JavaScript. Strong problem-solving and analytical skills. Team player with an eye for detail.

EDUCATION

FULL STACK STUDENT.

At Evangadi Tech

2024 - 2025

BS IN COMPUTER SCIENCE

Jimma university

2022- 2026

SKILLS

- Web Development
- React JS
- JavaScript
- HTML & CSS
- Bootstrap
- C++ & Java
- Problem-Solving
- Team Collaboration
- Project Management
- Netlify
- Vercel
- Github

EXPERIENCE

- While I do not have formal job experience, I have gained strong experience through building projects independently. I developed skills in React and JavaScript, creating functional and responsive web applications. I improved problem-solving and debugging abilities, worked with API integration, and applied JavaScript concepts to enhance interactivity. Additionally, I gained experience in UI/UX design, version control (GitHub), and project deployment using Netlify.

PROJECTS I BUILT.

- Unsplash API Image Finder, Apple Clone, Super Calculator, To-Do List App, Quote Generator, Hex Color Code Generator, RGB Color Generator, Temperature Converter, QR Code Generator, Celsius to Fahrenheit Converter.

All my project's are on project section of my portfolio :
